TELEGRAPH INFORMATION

Rates within the Commonwealth—

Ordinary telegrams, not exceeding 16 words, including address and signature :—

		s.	d.
Town and suburban, or within 15 miles of sending station (within the State)	0	0	
Other places within the State	...	1	0
Interstate	...	1	4
Each additional word	...	0	1

Urgent rate telegrams.—Double the ordinary rates. Double rates are also charged on Sundays, Christmas Day, and Good Friday, and after hours.

Lettergrams.—Not exceeding 30 words, 1s. 3d. Each additional word, $\frac{1}{2}$ d. (Double rates on Sundays, Christmas Day, and Good Friday).

Rates to and from the United Kingdom—

Rate per Word—

By Cable.—(Ordinary, 2/-; Urgent, 4/-; (Code (C D E) 60% ordinary rates (minimum charge as for five words); Deferred, 1/-; Daily Letter Telegrams, 8d. (Minimum charge as for 25 words, 16/8).

By Wireless via Beam.—Ordinary, 1/8; Urgent, 3/4; Code (C D E) 60% ordinary rates (minimum charge as for five words); Deferred, 10d. Daily Letter Telegrams, 6-2/3d. (Minimum charge as for 25 words, 13/11).

Money Order Telegrams. A cash remittance may be made by telegraph money order.

Prepaid Replies. A prompt reply is ensured by the sender pre-paying the charges therefor at the time of lodgment. If a subscriber so desires, the charges for a reply may be debited to his telephone account.

Collect Telegrams. The charge for a telegram may be collected on delivery, if the sender gives a guarantee.

Ornamental Forms and Envelopes. Attractively coloured and appropriately designed telegram forms and envelopes are available for Social Messages, Birthday and Easter Greetings, Congratulatory Telegrams, Mothers' Day Messages and Christmas and New Year Greetings. There is no additional charge.

Private Wire Teleprinter Services. A private Teleprinter Service may be leased from the Department, providing instantaneous electrical communication over a channel between points either in the same area or up to thousands of miles apart. Transmission is effected by the operation of a keyboard similar to that of a commercial typewriter, a printed record being made simultaneously at the "home" and distant terminals. Reception is automatic and instantaneous, and speeds up to 60 words per minute may be attained by any typist of average manipulative skill. A Teleprinter service can also be arranged between business premises and the local telegraph office for the transmission and reception of telegrams.

Full particulars may be obtained from the Superintendent, Telegraph Branch, Brisbane. Telephone BY 8360.

Telephoning of Telegrams. A telephone subscriber may telephone telegrams and lettergrams to a telegraph office for onward transmission. The charge for a telegram dictated over the telephone is 2d. per message, plus the usual telegraph and telephone tariff. These charges will be included in the next telephone account in the same manner as fees for trunk line calls. No deposit is necessary. A telegram addressed to a telephone number will be telephoned to the addressee free of charge, thus ensuring more expeditious delivery of the message.

To telephone a telegram ask the exchange for "Telegrams." The call will then be put through to the telegraph office, or in the case of some of the smaller exchanges the message will be taken down by the telephonist. If the local telegraph office is closed, the telephonist will, if the subscriber so desires, connect the call to the nearest office which is open; the trunk line fee involved will be added to the telegraph charges. On completion of the message the attendant will repeat it back to ensure its accuracy. Correctness in reception of unusual or difficult words is ensured by spelling each respective word and using suitable code words, e.g., A for Albert, B for Bob, etc.

Telegrams may also be telephoned over a trunk line to a subscriber from the nearest telegraph office which is open, when the trunk line charges involved are paid by the sender.

Getting around this CD

NAVIGATING ARCHIVE CD BOOKS CDs

All Archive CD Books products can be navigated easily using the handy bookmarks on each CD. The table of contents in most original books, and the original book index where it exists, can provide additional ways of finding the information required.

SEARCHING TEXT ON ARCHIVE CD BOOKS AUSTRALIA CDs

Optical Character Recognition (OCR) technology has been developing over the years as a useful mechanism to convert images (as Archive CD Books pages are) into text which can be searched.

The quality of the OCR can still vary, and hence the searchability can vary. Around 95% or 99% of the words in books with good type are searchable—or even higher with very good type.

*OCR is now a wonderful searching aid in many instances
but there is still no substitute for reading the book!*

DIFFERENT VERSIONS OF ADOBE ACROBAT READER

Adobe Acrobat Reader 4 or later should be used. Adobe Reader 6 (as it is now named) in fact has considerably better searching options and is recommended.

- **Acrobat Reader v4** has both a "Find" and a "Search" tool. Those tools are two *totally* different things. Our CDs (that are searchable) work with the *FIND* tool
- **Acrobat Reader v5** has only a "Find" tool (not a "search" tool). Our CDs (that are searchable) work with the *FIND* tool.
- **Adobe Reader v6** has only a "Search" tool (not a tool labelled "Find")
HOWEVER — what is called "Search" is the same as the tool that used to be called "Find" Our CDs (that are searchable) work with the *SEARCH* tool

TIPS FOR SEARCHING AND GETTING MORE FROM THE CD BOOKS

- update to Adobe Reader 6 for more versatile searching options, including the ability to bring up a list of all instances of the word you are searching for — across multiple files on a single CD in a single search request.
- enter the MINIMUM number of characters needed to bring up the search results required.
- use Adobe Reader 6 to do some trial searches to try to identify the characters that may be misread. These can show up in the extra text in the search results list (Adobe 6 only). A few minutes trial will help you to avoid using characters that are more prone to being misread, e.g. try entering "rederi" if you want "Frederick", but find that the letters "F" "c" and "k" are sometimes misread.
- use the "Match whole word" option to eliminate unnecessary items in your results list, e.g. to eliminate all the blacksmiths and tinsmiths etc when you only want the name Smith
- use the "Match case" option when you want to eliminate all the occupations "smith" if you only want the name "Smith"
- Don't just search for names. Search the book for other names, places and subjects of interest:
 - look for others of the same name
 - look for others who lived in the same place or street
 - who was the postmaster or police officer in the town?
 - how often and at what time did the coach arrive in town?
 - what churches were there and what time were services held?
 - what other activities were there in the community?
 - look for others who had the same occupation or other interests
- All of this and more may be available in a seemingly mundane book such as a directory. You could learn or write much of the background of life at the time, even if your ancestor is not listed there.

ADOBE ACROBAT SEARCHING IS A WONDERFUL FIRST FINDING AID.
