This sampler file includes the title page,
and various sample pages from this volume.
This file is fully searchable (read search tips page)

Archive CD Books Australia exists to make reproductions of old books, documents and maps available on CD to genealogists and historians, and to co-operate with family history societies, libraries, museums and record offices to scan and digitise their collections for free, and to assist with renovation of old books in their collection.

Tasmania Post Office Directory (Wise's) 1917

Ref. AU6110-1917

Navigating this CD

To view the contents of this CD use Acrobat Reader's forward and back buttons to browse through the pages, alternatively use the **INDEX** bookmark to search for specific information and then use the bookmarks and Acrobat's page buttons (or slide bar) to go to the relevant page.

Use Acrobat Reader's bookmark functions to jump to highlighted sections.

To activate bookmarks click on "Window" and then "Show bookmarks" (or press F5)

Searching this CD

This book has been formatted to be searchable using Adobe Acrobat Reader.

- Adobe Reader 6 or later is recommended for more advanced searching capability within a file or across multiple files.
- Generally 95% - 99% of the words can be searched. Where the original type was poor the words may not be recognized for searching.
- For more detailed explanation and tips to get the best search results [click here](#)

The technical advancements that allow this searching bring a wonderful finding aid but there is still no substitute for reading the book!

Deloraine—Clerk, H H Freeman; ann value property, £45,917; no gen rate for 1916. Council meets 2nd Monday in month. Pop, 5776

Getting around this CD

Navigating Archive CD Books CDs

All Archive CD Books products can be navigated easily using the handy bookmarks on each CD. The table of contents in most original books, and the original book index where it exists, can provide additional ways of finding the information required.

Searching Text on Archive CD Books Australia CDs

Optical Character Recognition (OCR) technology has been developing over the years as a useful mechanism to convert images (as Archive CD Books pages are) into text which can be searched. The quality of the OCR can still vary, and hence the searchability can vary. Around 95% or 99% of the words in books with good type are searchable—or even higher with very good type.

*OCR is now a wonderful searching aid in many instances
but there is still no substitute for reading the book!*

Different Versions of Adobe Acrobat Reader

Adobe Acrobat Reader 4 or later should be used. Adobe Reader 6 (as it is now named) in fact has considerably better searching options and is recommended.

- **Acrobat Reader v4** has both a “Find” and a “Search” tool. Those tools are two *totally* different things. Our CDs (that are searchable) work with the *FIND* tool
- **Acrobat Reader v5** has only a “Find” tool (not a “search” tool). Our CDs (that are searchable) work with the *FIND* tool.
- **Adobe Reader v6** has only a “Search” tool (not a tool labelled “Find”). HOWEVER — what is called “Search” is the same as the tool that used to be called “Find” Our CDs (that are searchable) work with the *SEARCH* tool

Tips For Searching and Getting More From the CD Books

- update to Adobe Reader 6 for more versatile searching options, including the ability to bring up a list of all instances of the word you are searching for — across multiple files on a single CD in a single search request.
- enter the MINIMUM number of characters needed to bring up the search results required.
- use Adobe Reader 6 to do some trial searches to try to identify the characters that may be misread. These can show up in the extra text in the search results list (Adobe 6 only). A few minutes trial will help you to avoid using characters that are more prone to being misread, e.g. try entering “rederi” if you want “Frederick”, but find that the letters “F” “c” and “k” are sometimes misread.
- use the “Match whole word” option to eliminate unnecessary items in your results list, e.g. to eliminate all the blacksmiths and tinsmiths etc when you only want the name Smith.
- use the “Match case” option to eliminate all the occupations “smith” if you only want the name “Smith”.
- don’t just search for names. Search the book for other names, places and subjects of interest:
 - › look for others of the same name
 - › look for others who lived in the same place or street
 - › who was the postmaster or police officer in the town?
 - › how often and at what time did the coach arrive in town?
 - › what churches were there and what time were services held?
 - › what other activities were there in the community?
 - › look for others who had the same occupation or other interests
- all of this and more may be available in a seemingly mundane book such as a directory. You can learn much of the background of life at the time, even if your ancestor is not listed there.
- Many CDs have only one file, but some have the book content spread over several files. Adobe Reader normally searches in the file that is open at the time. If you wish to search ALL files at once choose the “All PDF documents in” option and select the CD drive or directory the files are in—Adobe Reader 6 only.

ADOBE ACROBAT SEARCHING IS A WONDERFUL FIRST FINDING AID.
BUT DO NOT RELY ON IT TO PICK UP ALL THE INFORMATION YOU WANT
