### Searching this CD

This book has been formatted to be searchable using Adobe Acrobat Reader.

- Adobe Reader 6 or later is recommended for more advanced searching capability within a file or across multiple files.
- The text on a few pages in the original is faint and in some cases cut off. This may limit the searching accuracy on the pages concerned, however they are quite readable on screen.

# PREFACE.

THE Series of Post Office Directories issued by the Publishers are now so much in repute that their fame and usefulness are not limited to the States they represent, but are in demand not only in every State of Australia and the Dominion of New Zealand, but throughout the whole commercial world abroad.

THE WESTERN AUSTRALIA POST OFFICE DIRECTORY is one of the series that spreads the knowledge of the State far and wide, thus making its value to business men far beyond mere local uses. This 1914 issue therefore—corrected most carefully as it is and most reliable—is, as ever, a great factor in making known the great advances made by the State of Western Australia year by year, and of the prodigious strides it has made since the first issue of the Directory. The vast extent of territory which this work covers also represents where the work circulates—from the extreme northern towns to the most southern, indeed the length and breadth of the whole territory of Western Australia—needless to say the advantages offered to the commercial community by the circulation are immense, giving publicity for a whole year for those representative firms who utilise it for their announcements.

The three classifications of Towns, Alphabetical and Trades, enable the enquirer to see at a glance (i), the Householders or Traders in any one Town; (ii), the Business and Address of any resident in the State; and, (iii), the Firms throughout Western Australia engaged in any trade or profession; while the miscellaneous portion at the end of the work is replete with information useful to all. Though the Directory is an index in itself, yet the copious indices in front include the Representative Business Houses and Firms of Western Australia who utilise this Work.

The Publishers again take this opportunity to express their thanks to the Deputy Postmaster-General, the various Postmasters, Officials of Government Departments, and others, who have rendered such hearty and invaluable co-operation and assistance.

# Getting around this CD

## Navigating Archive CD Books CDs

---

All Archive CD Books products can be navigated easily using the handy bookmarks on each CD. The table of contents in most original books, and the original book index where it exists, can provide additional ways of finding the information required.

## Searching Text on Archive CD Books Australia CDs

---

Optical Character Recognition (OCR) technology has been developing over the years as a useful mechanism to convert images (as Archive CD Books pages are) into text which can be searched. The quality of the OCR can still vary, and hence the searchability can vary. Around 95% or 99% of the words in books with good type are searchable—or even higher with very good type.

*OCR is now a wonderful searching aid in many instances  
but there is still no substitute for reading the book!*

## Different Versions of Adobe Acrobat Reader

---

Adobe Acrobat Reader 4 or later should be used. Adobe Reader 6 (as it is now named) in fact has considerably better searching options and is recommended.

- **Acrobat Reader v4** has both a “Find” and a “Search” tool. Those tools are two \*totally\* different things. Our CDs (that are searchable) work with the \*FIND\* tool
- **Acrobat Reader v5** has only a “Find” tool (not a “search” tool). Our CDs (that are searchable) work with the \*FIND\* tool.
- **Adobe Reader v6** has only a “Search” tool (not a tool labelled “Find”). HOWEVER — what is called “Search” is the same as the tool that used to be called “Find” Our CDs (that are searchable) work with the \*SEARCH\* tool

## Tips For Searching and Getting More From the CD Books

---

- update to Adobe Reader 6 for more versatile searching options, including the ability to bring up a list of all instances of the word you are searching for — across multiple files on a single CD in a single search request.
- enter the MINIMUM number of characters needed to bring up the search results required.
- use Adobe Reader 6 to do some trial searches to try to identify the characters that may be misread. These can show up in the extra text in the search results list (Adobe 6 only). A few minutes trial will help you to avoid using characters that are more prone to being misread, e.g. try entering “rederi” if you want “Frederick”, but find that the letters “F” “c” and “k” are sometimes misread.
- use the “Match whole word” option to eliminate unnecessary items in your results list, e.g. to eliminate all the blacksmiths and tinsmiths etc when you only want the name Smith.
- use the “Match case” option to eliminate all the occupations “smith” if you only want the name “Smith”.
- don’t just search for names. Search the book for other names, places and subjects of interest:
  - › look for others of the same name
  - › look for others who lived in the same place or street
  - › who was the postmaster or police officer in the town?
  - › how often and at what time did the coach arrive in town?
  - › what churches were there and what time were services held?
  - › what other activities were there in the community?
  - › look for others who had the same occupation or other interests
- all of this and more may be available in a seemingly mundane book such as a directory. You can learn much of the background of life at the time, even if your ancestor is not listed there.
- Many CDs have only one file, but some have the book content spread over several files. Adobe Reader normally searches in the file that is open at the time. If you wish to search ALL files at once choose the “All PDF documents in” option and select the CD drive or directory the files are in—Adobe Reader 6 only.

ADOBE ACROBAT SEARCHING IS A WONDERFUL FIRST FINDING AID.  
BUT DO NOT RELY ON IT TO PICK UP ALL THE INFORMATION YOU WANT
